How to crack word!!!

First go to this webpage: (<https://massgrave.dev>) then copy the shown link.

The screenshot shows the MAS website interface. The left sidebar contains navigation links: MAS, Home, Download Windows / Office, FAQ, Troubleshoot, More, Blog, Contact Us, and social media icons. The main content area is titled 'How to Activate Windows / Office / Extended Updates (ESU)'. It features 'Method 1 - PowerShell' with an 'INFO' icon. The steps are: 1. Open PowerShell (Click the Start Menu, type PowerShell, then open it). 2. Copy and paste the code below, then press enter. The code is: `irm https://get.activated.win | iex`. A red box highlights this code, and a red arrow points to a copy icon. Below the code, it says: 'If the above is blocked (by ISP/DNS), try this (needs updated Windows 10 or 11):' followed by the command: `iex (curl.exe -s --doh-url https://1.1.1.1/dns-query https://get.activated.win | Out-String)`. Step 3 states: 'The activation menu will appear. Choose the green-highlighted options to activate Windows or Office.' Step 4 says 'Done!'. Below this is 'Method 2 - Traditional (Windows Vista and later)' with its own 'INFO' icon and steps: 1. Download the script: MAS_AIO.cmd or the full ZIP. 2. Run the file named MAS_AIO.cmd. 3. You will see the activation options. Follow the on-screen instructions.

Open power shell as administrator in your PC and then paste the link you copied from the webpage.

Need help? Check our homepage: <https://massgrave.dev>

```
PS C:\WINDOWS\system32> irm https://get.activated.win | iex
```

After that another window show pop up and, in the window, choose the second option
(Note: the first option is to activate windows)

```
Administrator: Microsoft Activation Scripts 3.9

Activation Methods:

[1] HWID - Windows
[2] Ohook - Office
[3] TSforge - Windows / Office / ESU
[4] Online KMS - Windows / Office

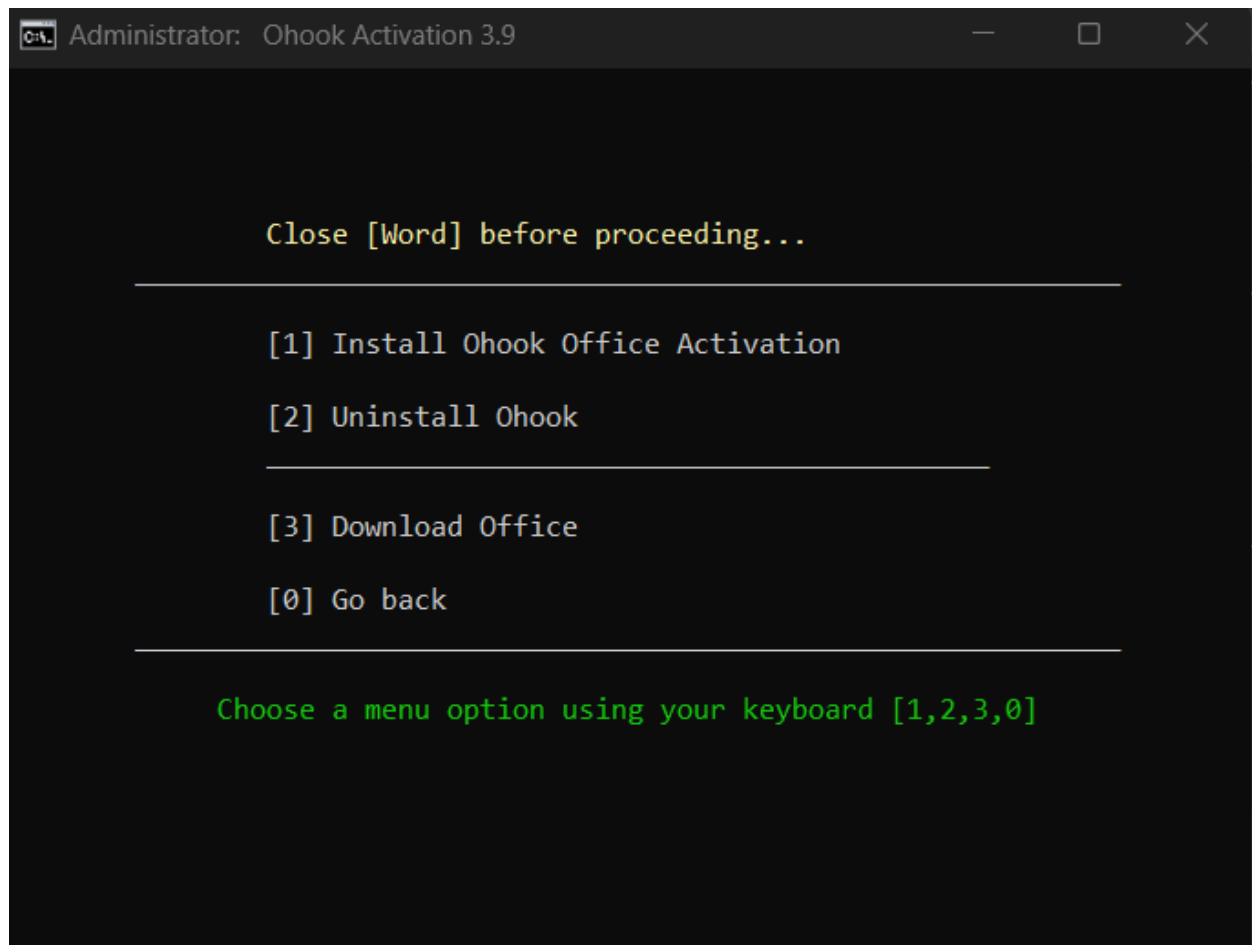

[5] Check Activation Status
[6] Change Windows Edition
[7] Change Office Edition

[8] Troubleshoot
[E] Extras
[H] Help
[0] Exit

Choose a menu option using your keyboard [1,2,3...E,H,0] :
```

After you choose the second option another window should pop up choose option 1, and after that the activation should start.

After the activation is completed this should pop up and you are good to use your office setup.

```
Administrator: Ohook Activation 3.9
